

AMENDMENTS TO THE CLAIMS

Please **CANCEL** claims 25-30 without prejudice or disclaimer.

Please **AMEND** claims 21, 23 and 24 as shown below.

The following is a complete list of all claims in this application.

1-20 (Cancelled)

21. (Currently Amended) A thin film transistor (TFT) array panel for a liquid crystal display, comprising:

a gate first line;

a data second line intersecting the gate first line;

a pixel region defined by the intersection of the data second line and the gate first line;

a pixel electrode formed in the pixel region; and

a conductive pattern connected to the data second line and having a ladder shape.

22. (Previously Presented) The TFT array panel of claim 21, further comprising a storage wire including a storage electrode line.

23. (Currently Amended) The TFT array panel of claim 21, further comprising a passivation layer formed between the pixel electrode and the data first line and the second line.

24. (Currently Amended) A thin film transistor (TFT) array panel for a liquid crystal display, comprising:

a ~~gate~~ first line;

a common wire including a common electrode line;

a ~~data~~ second line intersecting the ~~gate~~ first line;

a pixel region defined by the intersection of the ~~gate~~ first line and the ~~data~~ second line;

a pixel electrode formed in the pixel region and overlapping the common electrode; and

a conductive pattern connected to the ~~data~~ second line and having a ladder shape.

25-30. (Cancelled)

31. (Previously Presented) The TFT array panel of claim 22, wherein the conductive pattern and the storage wire are formed of the same material.
